

THURSDAY 8 SEPTEMBER 2011

CONTINUING EDUCATION SESSION

INFECTIOUS DISEASES

Chair: Susan Paterson

- 8:45-9:30** • Problem Oriented Approach to papular-pustular dermatitis-D. Morris
9:30-10:15 • Unusual canine pyoderma-D. Morris

10:15-11:15 BREAK

Chair: Sophie Vandenaabeele

- 11:15-12:00** • Unusual clinical presentations of infectious diseases (not classic pyoderma) in dogs and cats-D. Carlotti
12:00-12:45 • The diagnosis, prognosis and management of feline cutaneous viral infections-J. Declercq

12:45-14:15 LUNCH

Chair: Emmanuel Besignor

- 14:15-15:00** • Antifungal therapy-D. Carlotti
15:00-15:45 • Topical antimicrobial therapy (shampoo and cream)-D. Carlotti

15:45-16:30 BREAK

Chair: Emmanuel Besignor

- 16:30-17:15** • Pyoderma in cats and therapy-D. Lloyd
17:15-18:00 • Antimicrobial therapy; new challenges and new approaches-D. Lloyd

SCIENTIFIC SESSION

INFECTIOUS DISEASES

Chair: Luc Beco

- 8:45-9:30** • MRSA in dogs and cats-D. Lloyd
9:30-10:15 • MRSP in dogs-D. Lloyd

10:15-11:15 BREAK

Chair: Aiden Foster

- 11:15-12:00** • Mechanism of staphylococcal infection-host-pathogen interaction-J.A. Lindsay
12:00-12:45 • Transfer of bacterial virulence and resistance- J.A. Lindsay

12:45-14:15 LUNCH

Chair: Susan Paterson

- 14:15-15:00** • Antimicrobial and antiseptic use and bacterial resistance-J.A. Lindsay
15:00-15:45 • MRSA infection control-I. Gould

15:45-16:30 BREAK

Chair: Aiden Foster

- 16:30-17:15** • Prudent use of antibiotics-the human perspective-I. Gould
17:15-18:00 • Epidemiology and treatment of multi-resistant Gram negative bacterial infections... are we entering a post-antibiotic era?-I. Gould

FRIDAY 9 SEPTEMBER 2011

CONTINUING EDUCATION SESSION

SELECTED CONTROVERSIAL DISEASES

Chair: Laura Ordeix

- 8:45-9:30 • Drug reaction-D. Morris
9:30-10:15 • Vasculitis-D. Morris

SCIENTIFIC SESSION

SHORT COMMUNICATIONS

Chair: Thierry Olivry

- 9:30-9:45 • Investigation of the efficacy of a moisturizer on the skin barrier recovery in a canine model of mechanical chronic barrier disruption-E. Vidémont
9:45-10:00 • Expression in the dog of two epidermal key proteins, filaggrin and corneodesmosin-D. Pin
10:00-10:15 • Characterization of a model of skin barrier disruption and establishment of a correlation between TEWL and the degree of skin barrier disruption in the pig-D. Pin

10:15-11:15 BREAK

Chair: Sophie Vandenaabeele

- 11:15-12:00 • Ischemic dermatopathy-D. Carlotti
12:00-12:45 • Mural folliculitis-D. Carlotti

10:15-11:15 BREAK

Chair: Thierry Olivry

- 11:15-11:30 • Canine leishmaniasis: How frequent are atypical skin presentations or combined diseases? Results from a national survey-A. Roussel
11:30-11:45 • Monthly use of 10% moxidectin and 2.5% imidacloprid spot on to prevent relapses in difficult cases of generalised demodicosis: a pilot study-S. Colombo
11:45-12:00 • Topical treatment of equine sarcoids. A clinical pilot study comparing Aldara and Xxterra-H. Broström
12:00-12:15 • Generation of canine keratinocyte cell lines harbouring canine papillomavirus DNA-C. Lange
12:15-12:30 • A Chlorhexidine 0.15% and Tris EDTA ear flushing solution in the therapy of bacterial otitis-C. Noli
12:30-12:45 • Fusidic acid and framycetin show synergistic antimicrobial activity in vitro-T. Nuttall

12:45-15:00 LUNCH (See also next page)

PANEL SESSIONS

Chair: Alessandra Fondati

- 15:00-15:45 • Idiopathic sterile pyogranuloma; Panniculitis; Sweet's syndrome- J. Declercq & E. Walder
15:45-16:30 • Juvenile cellulitis; Eosinophilic folliculitis and furunculosis- J. Declercq & E. Walder

12:45-15:00 LUNCH (See also next page)

STRUCTURE & FUNCTION

Chair: Thierry Olivry

- 15:00-15:45 • Melanocyte Biology and Mechanisms of Skin Diseases in Animals- Part I-K. Linder
15:45-16:30 • Melanocyte Biology and Mechanisms of Skin Diseases in - Part II-K. Linder

16:30-17:15 BREAK

Chair: Alessandra Fondati

- 17:15-18:00 • Lupoid onychodystrophy; Nasal/footpad hyperkeratosis; Nasal pyoderma vs DLE- J. Declercq & E. Walder

16:30-17:15 BREAK

Chair: Thierry Olivry

- 17:15-18:00 • Melanocyte Biology and Mechanisms of Skin Diseases in Animals- Part III-K. Linder

FRIDAY 9 SEPTEMBER 2011

VETERINARY WOUND HEALING ASSOCIATION

Chair: Hans Broström

- 8:45-9:30** • The influence of contamination, colonization, critical colonization and infection on management and healing of wounds-J.Wilmink
- 9:30-10:15** • Role of inflammation in wound healing and management-J.Wilmink

10:15-11:15 BREAK

Chair: Jacintha Wilmink

- 11:15-12:00** • Fundamentals of dressings-Recent developments and the modern clinical challenge-K. Cutting
- 12:00-12:45** • Do maggot enzymes have a place in veterinary practice?-D. Pritchard

12:45-15:00 LUNCH

- 13:30-15:00 ESVD AGM, Silver Hall
- 14:00-15:00 VWHA AGM, Hall 300

ESVD-ECVD SHORT COMMUNICATIONS

Chair: Ian Mason

- 15:00-15:15** • Allergy testing for mites in healthy beagle dogs-S. Koebrich
- 15:15-15:30** • Development of a structured educational program for the management of canine atopic dermatitis and the application of this program to owners of affected dogs-M. Linek
- 15:30-15:45** • Prednisolone, unlike ciclosporin A, therapy is not associated with increases in serum fructosamine concentrations in dogs with atopic dermatitis-M. Kovalik
- 15:45-16:00** • Production of an oligoclonal antibody to assay specific canine IgE-J. Alvarez
- 16:00-16:15** • Practicability and safety of intralymphatic allergen-specific immunotherapy in dogs with atopic dermatitis-K. Hatzmann
- 16:15-16:30** • Comparative efficacy of two shampoos containing an azole derivative to decrease clinical signs and Malassezia pachydermatis counts in Basset Hounds: a comparative blinded randomized trial-P. Bourdeau

16:30-17:15 BREAK

ESVD-ECVD INTERACTIVE POSTER SESSION

Chair: Rosario Cerundolo

- 17:15-17:24** • Establishment of diagnostic criteria for feline non flea-induced hypersensitivity dermatitis-C. Favrot
- 17:24-17:33** • Control of non-infected calluses in dogs with a mixture of essential oils and essential fatty acids: an open prospective study-E. Gaillard
- 17:33-17:42** • Comparative efficacy of a 3% Chlorhexidine shampoo and a 2.5% benzoyl peroxide shampoo for the treatment of superficial bacterial overgrowth syndrome in dogs-S. Viaud
- 17:42-17:51** • Efficacy of a specific diet on management of canine atopic dermatitis: a randomized, double-blinded controlled clinical study-N. Sanchez
- 17:51-18:00** • Dermatitis in a dog infected with *Dirofilaria repens*: clinical picture and treatment with a spot-on solution containing imidacloprid 10%/moxidectin 2.5%-D. Traversa

SATURDAY 10 SEPTEMBER 2011

CONTINUING EDUCATION SESSION

ALLERGY

Chair: Luc Beco

- 8:45-9:30** • Canine atopic dermatitis-
T. Willemse
9:30-10:15 • Food allergy in dogs and cats-
H. Jackson

SCIENTIFIC SESSION

INTERNATIONAL SOCIETY OF VETERINARY DERMATOPATHOLOGY

Chair: Sonya Bettenay

- 8:45-9:30** • Identification of stem cells in adult epidermis I-
F. Watt
9:30-10:15 • Identification of stem cells in adult epidermis II-
F. Watt

10:15-11:15 BREAK

10:15-11:15 BREAK

Chair: Claudia Nett

- 11:15-12:00** • Diagnosis of canine atopic
dermatitis-T. Willemse
12:00-12:45 • Diagnostic tests for food
allergy?-H. Jackson

Chair: Judith Nimmo

- 11:15-12:00** • Pathomechanisms of follicular disease-
V. Affolter
12:00-12:45 • Difficult diagnoses in hair follicle diseases-
V. Affolter & E. Walder

12:45-15:00 LUNCH

13:30-15:00 ECVD AGM, Copper Hall
13:00-14:45 ISVD AGM, Silver Hall

12:45-15:00 LUNCH

13:30-15:00 ECVD AGM, Copper Hall
13:00-14:45 ISVD AGM, Silver Hall

Chair: Anke Hendricks

- 15:00-15:45** • Long term management of atopic
dermatitis-T. Willemse
15:45-16:30 • Feline atopic dermatitis-T. Willemse

Chair: Verena Affolter

- 15:00-16:30** • Clinicopathological conference

16:30-17:15 BREAK

16:30-17:15 BREAK

Chair: Anke Hendricks

- 17:15-18:00** • Diets and nutritional supplements
used for the diagnosis and
management of food allergy-
H. Jackson

SHORT COMMUNICATIONS

Chair: Sonya Bettenay

- 17:15-17:30** • Use of an open-source GIS-based method for
topographic analysis of nodular skin lesions in
dogs-L. Cornegliani
17:30-17:45 • Cutaneous mycobacteriosis in cats: 9 cases of
feline leprosy syndrome and 1 case of Mycobacterium
microti induced cutaneous tuberculosis-C. Laprie
17:45-18:00 • Microarray analysis of canine papillomavirus lesions
to identify markers of cancer transformation-E. Vetsch
